Bottle Filling Station

DRINKING WATER PRODUCTS

Our drinking solutions are designed to meet or exceed your needs and specifications. Select from a wide variety of bottle filling stations, water coolers, drinking fountains, water dispensers and remote chillers that comply with adult or child ADA standards, as well as models that offer the added assurance of our WaterSentry® filters.

Bottle Filling Stations

We continue to expand our ezH2O bottle filling station offerings. This innovative and award-winning product line upholds our commitment to delivering clean water and sustainable design. It provides a rapid fill of drinking water to quench thirst and minimize plastic bottle waste in the environment.

Coolers and Fountains

Elkay water coolers and drinking fountains come in a variety of styles. From standard design to architectural SwirlFlo® fountains that feature sleek styling with a contoured oval basin, there is a model to meet the needs of every space and building design. Most units offer the option of our WaterSentry filters and our Flexi-Guard® Safety Bubbblers. Flexi-Guard bubblers flex on impact and feature an antimicrobial agent that is infused into the bubbler for an extra level of security.

Our EZH2O bottle filling stations are manufactured in Savanna, IL USA.

OUTDOOR BOTTLE FILLING STATIONS

Perfect for parks, golf courses, or pool areas. The outdoor bottle filling stations provide hydration on the go. Made of durable cold rolled steel and immersed in an E-Coat for the ultimate corrosion protection. Flexible configurability to meet any application with freeze resistant models available.

Available in 12 color options with textured finishes.

ARCHITECTURAL FOUNTAIN

The sleek design of our architectural fountains integrated with an EZH2O is ideal for office buildings and hospitals. Retrofits available to convert current bilevel SwirlFlo® and Soft Sides® architectural fountains into bottle fillers. Retrofits are also available on current refrigerated bi-level SwirlFlo® and Soft Sides® architectural fountains to incorporate a bottle filler.

Available in SwirlFlo® (pictured right) or Soft Sides®, refrigerated/nonrefrigerated or filtered/nonfiltered.

IN WALL UNITS

The EZH2O can be installed alone or along with architectural fountains. Flush with wall for a seamless look makes these models ideal for office buildings or indoor recreational facilities. Product available to pair along with architectural units or with a remote chiller.

Available in filtered/non-filtered, refrigerated or non-refrigerated.

Our EZH2O bottle filling stations are manufactured in Savanna, IL USA.

SENSOR ACTIVATION

Touchless, sensor activation (bottle filler) designed for easy use; easy-to-operate push-bar activation (bubbler).

ECOLOGICAL

Green Ticker™ informs user of number of 20 oz. plastic water bottles saved from waste.

LOCATION

Rated for indoor use.

ANTIMICROBIAL PROTECTION

Antimicrobial protection on key plastic components to inhibit the growth of mold and mildew.

EFFECTIVE FLOW

Real Drain System eliminates standing water.

SAFETY

Flexi-Guard® bubbler provides a flexible antimicrobial mouth guard to protect against injury and microorganisms.

WATERSENTRY® PLUS FILTER

- 3000 Gallon capacity*
- Quick, 1/4 turn for easy installation
- ANSI/NSF Standard 42 and 53

*Capacity may vary depending on local water conditions.

EZ COOLER COMBOS

The EZH2O® bottle filler pairs up with the Elkay EZ with features such as the Flexiguard® Safety bubbler and push button operation. Available in stainless steel or light gray granite, filtered or non-filtered.

LZSTL8WSLK

EZ RETROFIT

The EZH2O retrofit installs on existing EZ units. Available in filtered or non-filtered models. Custom graphic panels available.

Our EZH2O bottle filling stations are manufactured in Savanna, IL USA.

VANDAL-RESISTANT GREEN COOLERS/COOLER COMBOS

The Vandal Resistant Green units are our most efficient cooler combination. They provide greater energy efficiency, consume less water and use less refrigerant than any other comparable water cooler on the market. Primarily constructed with 60% recycled content stainless steel, this highly durable water cooler utilizes a vandal-resistant StreamSaver™ bubbler reducing the amount of water wasted down the drain.

Based on average market performance, the VRCGRN offers....

- 50% greater energy efficiency*
- 40% less water usage*
- 0% ozone-depletion potentials

LVRGCRN8WSK

MECHANICALLY ACTIVATED COOLER COMBOS

The EZH2O works along side an EMABF Cooler. Convenient hydration along with a mechanical cooler so water is always available. Self closing mechanically activated push bars on both front and sides operate even during power disruption. Available in stainless steel or light gray granite, filtered or non-filtered.

LMABF8WSSK

EZ GREEN COOLER COMBO

Our EZ Green family offers the features you have come to know with Elkay such as the Flexiguard® Stream Saver™ water efficient bubbler and push button operation while including our energy efficient refrigeration system. Available in stainless steel or light gray granite, filtered or non-filtered.

LZSTLG8WSSK

Energy Efficiency Comparison Chart*

*Based on the maximum amount of energy ("standard minimum energy factor") that a cooler uses to provide a specified gallons of chilled drinking water per hour as specified in CAN/CSA C-815.

Our EZH2O bottle filling stations are manufactured in Savanna, IL USA.

SURFACE MOUNT

Can be used in locations with limited wall depth or in conjunction with a fountain or remote chiller.

Available with electric display and now available in a mechanically activated version with battery-powered green counter and visual filter monitor. Can be used in conjunction with a fountain or a remote chiller.
