

ezH2O® Refrigerated Surface Mount Bottle Filling Station

LZ8WSSSM2CX

Chilled Water With Touchless Dispense

Deliver refreshing, refrigerated water where you need it. This intuitive bottle filling station provides a completely hands-free, hygienic water delivery solution for any indoor space.

Chilled Drinking Water, Where You Need It

Enjoy the same great experience you've come to expect from our ezH2O bottle filling stations with our refrigerated surface mount units. Chilled water is dispensed from this bottle filling station to deliver a truly refreshing solution.

EZ8WSSSM2CX

Cleaner, Healthier Water

Filtered models feature our WaterSentry® filter, which is NSF/ANSI certified to reduce lead and other harmful contaminants.

Convenient Metal Grate

Stainless steel grate provides a bottle rest platform for convenient, hands-free bottle filling. The metal grate removes easily for cleaning.

Improved Access

A wall projection of just 12" improves access for quick water bottle fills.

See Bottles Saved

Green Ticker™ informs user of number of 20 oz. plastic water bottles saved from waste.

Hands-free Activation

Touchless, sensor-activated bottle filler is designed for hygienic hydration and easy hands-free use.

Upgrade Existing Spaces

Rough-in replacement allows replacement over existing plumbing and electrical lines for a refreshing, refrigerated hydration solution.*

**Compatible with EZ and EMAB Elkay models.*
